

COMMANDER

The Mastermind

CLEEMANN'S EVOLUTION

Customizable operator seats for on- and offshore application. With fully integrated controls in the armrests the new operator seat Commander has specially been developed to meet the extreme needs and levels of comfort required on the new generation of vessels.

The special armrest consoles provide plentiful space for a number of steering controls and instruments. This permits relaxed maneuvering without any loss of comfort and control. Lots of individual adjustment possibilities meet the strongest demands of ergonomics for the operator.

The custom-built armrests are designed and manufactured individually to include a wide range of equipment provided or specified by the customer. With four modular standard cutout sizes (M · L · XL · XXL) we will guide you through hundreds of possible combinations.

COMMANDER XXL

COMMANDER XL

The Commander XXL is the most professional operator seat of the latest unlimited possibilities for planning and producing your individual command chair. The seat is suitable to include numerous control units, monitors and functions such as DP, autopilot, chart radar and conning display.

The Commander XL represents the high-class-range of the new Cleemann operator seat. This seat is capable to include up to 3 control units. Furthermore a screen holder can be attached at the front face of each armrest.

COMMANDER L

The Commander L, representing the mid-class range, also offers sufficient space for armrest casings which can be fitted with up to three controlling equipment of the customer's choice. Screen holders can be attached at the front face of the armrest as well.

COMMANDER M

The Commander M is the perfect solution if only one or two control units are requested. The holder for the controller will also be customized and can include a wide range of equipment such as joysticks, trackballs and smaller monitors.
