### LED Light Beam Dimensions

Illuminance (Lux) 870 218 55 14

Peak Beam Intensity: 544,000 Candela

Maximum Beam Distance: 1,475 m / 4,839 ft

Beam Angle: 8°

*A bad storm came through and my crew got called out in the middle of the night for down lines. It was a great chance to put our Golight to work. Having light where and when you need it, really helped us get things back up and my guys home safe. Thanks Golight for a great product.*

*-Gary Klumpe, Journeyman Lineman*

## Golight® GT Series - Halogen

### GOLIGHT GT SERIES

#### Remote Control Spotlights

- Wireless or Hardwired Remote Control Options
- Permanent or Portable Mounting Options

Peak Beam Intensity: 225,000 Candela

Maximum Beam Distance: 949 m / 3,113 ft

Beam Angle: 8°

... I had 2 go lights on my vehicle in Iraq 2007-2008... We were on a convoy security mission at night and I spotted a pressure plate about a 100meters out with your light!! My driver couldn't see it but I grabbed the wheel and we just missed it!!!...After EOD was done turns out that plate had over 5lbs of explosives that would have killed us all!!  
Thanks Kirby Frank US ARMY RETIRED!!
